SOUTHERN REGION CONTAINER INFORMATION

.....
The information listed below is furnished in an effort
to aid those receiving it, and it should be understood
that no discrimination is intended, nor any guarantee
of reliability implied.
.....

Some dealers report rather light movement of used containers at the present time. Egg cases have changed hands in fairly large lots and no serious shortages have been reported to date. Restaurants and other large institutional users are being urged to salvage for reuse every serviceable egg case delivered to them.

The War Food Administration continues to recommend early orders for new containers.

Some stocks for sale in this region are listed below.
